CROPSHARE OFFER 2024 SEASON

After the success of our pilot year at the community farm, we are pleased to be able to extend our share offer to **60 weekly veg shares** for the **2024 harvest** of our **delicious, local sustainably grown** (no chemicals or pesticides) **seasonal vegetables**.

Shares offers are for **6 months of weekly veg boxes, paid in advance** to fund the coming growing season e.g. for purchasing seeds, tools and paying our grower. **To guarantee your share we prefer full payment OR a 10% deposit and monthly payments.** Due to seasonal variations, we expect the quantity and variety of veg in your box to vary slightly throughout the year. We aim to balance out any shortfall between the abundant summer glut and sparser winter months.

By investing you will also be joining as a member of a unique community supported agricultural enterprise and will have a say in the future management of the project. **Together, the cropshare holders share in the success of the farm.**

Please visit www.wellingtoncommunityfood.org.uk for more information about the farm and cropshare offer and organisation membership.

Registration forms can be mailed to:
